E' il momento della massima resa,  
della praticità e della differenza.  
Tutto con estrema facilità!

## Linea matrici STANDARD.

Linea di matrici mono-getto dai rilievi poco accentuati, disponibili in una quarantina di disegni, abbelliscono il calcestruzzo in modo semplice ed economico. Adatte per tutti i tipi di calcestruzzo, anche auto-compattanti, sono garantite per minimo un getto. Posa facile e veloce sui casseri tramite chiodi o con l'apposito adesivo, non necessitano disarmante e quindi i muri possono venire eventualmente tinteggiati immediatamente dopo il disarmo.

Le finiture della serie STANDARD conferiscono al calcestruzzo gettato superfici discrete ed eleganti o, a vostra scelta, dei disegni più pronunciati.

Le misure sono espresse in mm.

## Linea matrici *ALTORILIEVO.*

Linea di matrici mono-getto dai rilievi molto accentuati, disponibili in 14 tipi di finiture, abbelliscono il calcestruzzo in modo semplice ed economico. Adatte per tutti i tipi di calcestruzzo, anche auto-compattanti, sono garantite per minimo un getto. Posa facile e veloce sui casseri tramite chiodi o con l'apposito adesivo, non necessitano disarmante e quindi i muri possono venire eventualmente tinteggiati immediatamente dopo il disarmo.

Le finiture della serie ALTORILIEVO conferiscono ad una costruzione un gradevole effetto. Possono essere posate all'interno delle casseforme in modo verticale, orizzontale o inclinate, per raggiungere il grado di personalizzazione desiderato. Ideali anche per la realizzazione di muri fonoassorbenti.

Le matrici ALTORILIEVO sono realizzate tramite accoppiatura di una lastra rigida in polistirene HIPS (lato getto) a un supporto in polistirolo ad alta densità.

Le sezioni indicate sono riferite alle matrici.
